100 YEAR CLUB

CELEBRATING
Entrepreneurship: Past, Present & Future

Monday, December 2, 2019

Proceeds from the 100 Year Club of the Western Reserve Annual Dinner A Celebration of Entrepreneurship: Past, Present and Future support the Western Reserve Historical Society’s education initiatives which serve over 35,000 Northeast Ohio students annually including 10,000 who participate in the Youth Entrepreneurship Education program.
About the 100 Year Club
The 100 Year Club of the Western Reserve was created in 1953 to honor an elite group of our region’s corporations and institutions that have been in continuous existence for at least one hundred years. The annual celebration recognizes the longstanding entrepreneurial and philanthropic spirit embodied in these Northeast Ohio organizations, which includes over 200 members.

About the Annual Dinner
Join the community in celebrating entrepreneurship in Northeast Ohio at the annual dinner that recognizes companies and organizations on this momentous milestone of reaching the centennial mark in their history. The evening includes networking and socializing with the region’s oldest companies, organizations and newest startups. The dinner is open to anyone who wishes to celebrate the accomplishments of existing members and new inductees.

About the Youth Entrepreneurship Education Continuum

The Western Reserve Historical Society (WRHS), in partnership with the Cleveland Metropolitan School District (CMSD), created the Youth Entrepreneurship Education (YEE) continuum model in 2013, an initiative launched with leadership funding from the Burton D. Morgan Foundation.

Two of WRHS’s museums, the Cleveland History Center and Hale Farm & Village, serve as the ideal incubators to nurture innovation and the entrepreneurial spirit in Northeast Ohio students. The YEE continuum is designed to use the stories of entrepreneurs and companies, such as yours, to inspire students to pursue the potential of an idea to solve a problem or create an opportunity for themselves and their communities. At a young age, students begin to cultivate 21st century skill sets and embrace the entrepreneurial mindset to build and steward the foundations of healthy communities. Proceeds from the HYC dinner support WRHS’s education initiatives which serve over 35,000 students annually, including 10,000 who participate in the YEE continuum.

4th Grade | Roots of Entrepreneurship in Northeast Ohio | Hale Farm & Village
Students discover how early entrepreneurs provided the foundation for the growth of early Ohio communities. Students explore the early American crafts and trades venues while discovering a rural, barter-driven, pre-industrial economy. These experiences lead to the discovery of entrepreneurial concepts and key vocabulary acquisition.

5th Grade | Setting the World in Motion | Cleveland History Center
Surrounded by the Crawford Auto-Aviation Museum collection and examples of Cleveland’s most innovative minds of the 20th century, students identify the characteristics of an entrepreneur. Then, they imagine themselves as entrepreneurs and creatively use primary source documents to learn about productive resources and regional specialization. Scholars then use their gained knowledge as a class to complete an onsite business plan.

6th Grade | REVolution | Cleveland History Center
Utilizing the REVolution exhibit, the Chisholm Halle Costume Wing, and Cleveland Starts Here®, a core exhibition and digital platform, students explore how Cleveland entrepreneurs shaped and continue to innovate and influence the American and global experience.

7th Grade | Raising the Dough | WRHS Research Library
Using the WRHS Research Library collections, students explore the essential question of how the entrepreneurial spirit supports a healthy community. Students focus on local business Hough Bakery, Inc. Students analyze primary source documents both in the classroom using the Cleveland Starts Here® Digital Portal, and on-site at the WRHS Research Library. Students will conduct research to help Hough Bakery, Inc. make a business decision by completing a cost-benefit analysis.

We hope you will support this exciting initiative and our young Entrepreneurs-in-Training!
