

CLEVELAND HISTORY CENTER

of the WESTERN RESERVE HISTORICAL SOCIETY

Homeschool Field Trips

September 2019-May 2020 | 10:00am-12:00pm

Hosted at the Cleveland History Center every third Wednesday of the month, this year's Homeschool Field Trip Days will invite students to become explorers within our museum's collections!

Appropriate for all ages. Students will be paired with a Museum Educator based on age (3-5, 6-8, 9-12, and 13+) to ensure age-appropriate program content.

September 18, 2019: History Explorer

How do we learn from the past? This month, students will learn and practice basic study skills to help them become a better history analyst. Students will practice observing, classifying, reflecting, and synthesizing information from various sources. They will then explore primary sources and learn how to use them. This will allow students to connect lessons from the past to today.

October 16, 2019: Entrepreneurship Explorer

Learn what it takes to become an entrepreneur! In this program, students will explore stories of Cleveland's most famous entrepreneurs. Further, they will learn appropriate vocabulary to use regarding entrepreneurs. Students will also gain financial literacy skills and vocabulary.

November 20, 2019: Citizenship Explorer

What does citizenship mean to you? For this month, students will answer what it means for them to be a "citizen" and discuss what it means for others as well. Additionally, students will learn how they can effect change for the benefit of themselves and others.

December 18, 2019: Special Curator Session

Join us for a special hands-on session with our curators! More information coming soon.

January 15, 2020: Transportation Explorer

Why is transportation important? During this field trip, students will study how transportation has changed over time, specifically the role Clevelanders played in changing forms of transportation. They will learn more about Cleveland's rich history as a transportation center and worldwide car capital.

February 19, 2020: Cleveland Explorer

How have the lives of Clevelanders changed through time? In this program, students will skills to compare and contrast "long ago" and "today." Then, they will examine how Cleveland has changed over time. Students will understand how the idea of childhood and growing up have evolved throughout history as a result of changing work responsibilities and their surrounding environment.

March 18, 2020: Native American Culture Explorer

How have different Native American cultures transformed Cleveland? First, students will discover how we learn about prehistoric peoples and their cultures. Next, students will learn about the groups of Native Americans have called Cleveland and Ohio home from past to present. Then, they will compare and contrast these different historic cultures that have lived in Ohio.

April 15, 2020: STEM Explorer

How do science and math affect everyday life? This month, students will study how the laws of math and science affect the way people live. Then, students will learn how museum engineers use STEM to create learning spaces for all visitors. Students will also be given the opportunity to create and crack different codes!

May 20, 2019: Carousel Explorer

How would you design a carousel? For this lesson, students will learn the history of our 109-year-old Euclid Beach Grand Carousel and get to ride it! Students will then study and classify the different types of carousel designs. Lastly, students will create their own carousel or carousel horse!
